PROFESSIONAL SUMMARY

Cybersecurity professional with hands-on experience in Security Operations (SOC), including threat monitoring, advanced security event analysis, incident investigation and response, threat hunting, and continuous improvement of detection capabilities across enterprise environments.

Experienced with SIEM, EDR/XDR, Anti-DDoS, firewalls, DLP, and cloud security technologies, complemented by exposure to Security Architecture, Application Security (AppSec), and Penetration Testing. Hands-on involvement in API security testing, vulnerability assessment, and technical coordination of penetration tests performed by specialized third-party providers. Strong interest in Offensive Security, Red Teaming, and practical cybersecurity research.

Certifications: CompTIA PenTest+, CySA+, Security+, ITIL 4 Foundation, and ISO/IEC 27001. Fluent in English and Spanish.

PROFESSIONAL EXPERIENCE

V.tal Telecomunicações | Information Security Analyst (Mid-Level) – Security Operations (SOC)

Jul 2026 – Present

- Analyze and investigate security events and incidents, correlating alerts and evidence from SIEM, EDR/XDR, and network security solutions.
- Analyze indicators of compromise (IoCs), suspicious behavior, and potential attack vectors to support incident response and mitigation.
- Contribute to threat hunting, detection improvements, and security control effectiveness assessments.
- Analyze security events involving firewalls, Anti-DDoS, DLP, identity systems, applications, and enterprise infrastructure.
- Complementary experience in AppSec and API security testing, including vulnerability assessment and technical coordination of penetration tests conducted by specialized external providers.
- Collaborate with architecture, infrastructure, development, and security teams on risk assessments, vulnerability remediation, and security control improvements.

V.tal Telecomunicações | Junior Information Security Analyst

Nov 2025 – Jun 2026

- Monitored security events and triaged alerts from SIEM, EDR, and perimeter security tools; analyzed logs, collected evidence, and escalated incidents.
- Reviewed firewall rules and DLP policies; monitored events across Microsoft 365, Entra ID, and Google Workspace.
- Created and monitored dashboards in Datadog, Grafana, and Zabbix; performed initial troubleshooting of infrastructure incidents.

Bayer Brasil / Suhai | Junior SOC Analyst

Nov 2023 – Oct 2024

- Performed initial triage and investigation of SIEM, EDR, and perimeter security alerts, including log analysis, evidence collection, and escalation.
- Documented incidents and prepared technical reports to support audits and continuous improvement.
